*“I have experienced a Body Intelligence session from Glenda and it was a wonderful, very soothing experience. In addition to the procedures completed during the hands-on session, she provided me with a number of self-administered exercises to complete on a daily basis, thereby extending considerably the benefits accruing from the hands-on session. Glenda is a calm, proficient practitioner in whose hands I felt completely at ease. I recommend her services to the widest possible audience”.

*“I have been to lots of other body and energy workers over the years and they always seemed mystical (or just plain weird!) and I would come away feeling intimidated that I couldn't get 'it'. Glenda unravelled that for me though - both with the treatment and talking about my specific issues. She explained concepts about energy that I can apply in my life and showed me some simple exercises I can do to keep the energy flowing. During the actual treatment I was completely comfortable and at ease. I was very relaxed and felt soothed and nurtured - which is quite amazing, considering she was only holding specific points on the body. It is a simplistic yet profound experience. I highly recommend a session with Glenda for anyone experiencing issues in their life, whether they are physical, emotional, spiritual or mental. **Brenda***

*“Glenda helped me to understand the root causes of my current condition. Once we both understood the unconscious causes of the issue, she helped me to see how this negative and limiting energy and behaviour felt in its polar expression. This was a tangible and transformative experience in itself. Her hands-on session completely balanced my emotional and energetic states - leaving me feeling like a new person. Glenda really has healing hands and a thorough knowledge of this powerful healing modality. Glenda's unique approach is her ability to provide life coaching which has given me personally-empowering tools to overcome my current condition for which I am grateful”.* **Al**

*“Glenda's warmth and dedication is apparent throughout the treatment. Her holistic approach is remarkably comprehensive. I have suffered from 30 + years of a chronic & complex health issues and illness. I felt so relaxed after the treatment. I had no desire to push through my body's natural energies (as I usually do). By the next day, intense angst energy transformed into positivity and gratitude. I felt expansive. What usually felt like an overwhelming burden was now an invigorating challenge to be met with a spacious interest and engagement. I have done so much healing work in my life so I was quite amazed and enormously relieved that Glenda had had such a significant impact on my first treatment! Now I feel I can move forward with more capacity and ease to do the work I have so longed to be able to do! In Deep Gratitude”* **Meryl**

*I was blessed to receive a treatment with Glenda just last week. What an experience! Glenda spent time with me ascertaining the core focus areas for treatment, and then honoured me with the most calming time on 'the table' - an experience during which I felt totally 'cared for'. Hard to describe, but I floated off into a place of utter peace with this extraordinary feeling of nurturing....Thank you, Glenda...wonderful! Highly recommended!* **Louise**

*Since my session with Glenda, I am now sleeping through the night, every night, something I haven't done since 1990. No more waking up between 3am and 5am and tossing and turning before deciding to get up. I feel like a new person. Thank you so much Glenda.* **Gail**
